Pain Management Information Session at Physiomobility

Last month Physiotherapy at Don Mills hosted a pain management information session to educate individuals on how to take control of their pain. The presenter was Gita Mikal, and the theme of the seminar was "Pain Management From Medication to Meditation". Gita presented an informative and friendly session on taking control of pain, and there was much interest in the topic. The clinic will be providing a comprehensive multidisciplinary approach to managing pain beginning in April. For more information visit: www.physiomobility.com.
