Located on the southwest corner of Don Mills Road and Lawrence Avenue East and with a generous 1000 free parking spots, Shops at Don Mills became in the last years one of the most attractive places in the city.

The mall owner, developer Cadillac Fairview, that focuses on developing and managing high quality office properties and regional shopping centers in Canada and the United States, decided to redevelop the site in 2003 to be more unique to attract more up-scale retailers and shoppers, without a main anchor tenant. The developer proposed to demolish the indoor shopping mall and replace it with an open-air setting, along with an intensification of the site. The intensification meant the construction of a parking garage to replace the large surface parking lot. The development also included using Center lands for new residential buildings. After community consultation, the plan was approved by the City of Toronto and the development proceeded. The Shops at Don Mills opened on April 22, 2009.

It is Ontario's first Urban Village that includes a central Town Square, a robotic water feature and a Douglas Coupland clock tower surrounded by best-in-class shops, restaurants, offices and residences. A breath of fresh air where shopping can be a great experience guiding you to chic boutiques and stores. The Shops attract every year hundreds of fashion-savvy who come to indulge in a comprehensive collection of international brands, to see concerts or to participate in different events.

We found out for you:

On Saturday May 26th 2012 at 11 am you are all invited to learn and exercise outdoors right in the town square at Shops at Don Mills. Take care of your health, learn how to garden without back pain and get familiar with new products and services. A FREE event generously organized by Physio at Don Mills and Eddie Bauer.

Call 416 444 4800 to register for the workshop or just come by to see the event!
