🌀 NOVEMBER 2011

🌀 THINKING OF GOING SKIING THIS SEASON ?

Dear *|FNAME|*

POORLY FITTED SKI BOOTS CAN RUIN YOUR
WINTER VACATION

From a performance point of view, ski boots are intentionally fitted small and tight to improve performance by providing feedback, control, sensitivity, and by reducing foot movement inside the boot. Often this tight fitting footwear causes a lot of pain and discomfort if you are not used to wearing ski boots regularly and it can ruin your ski holiday.

🌀 INTERESTED IN LEARNING MORE?

You are invited to join our Ski Clinic on
Saturday November 26, 2011 at 11 AM
with Dr. Bradford Lenser

🌀 At Physiotherapy at Don Mills, we pride ourselves as healthcare leaders, introducing unique specialty programs along with our proven, client-focused Physiotherapy, Acupuncture, Massage Therapy and Chiropractic services.
